Hospice Mid-Northland and Far North Community Hospice Education Calendar 2024

Syringe Driver Training

Registered or enrolled nurse within the mid and far north region can now enroll free of charge. (more info pg. 2)

Syringe driver training workshops are offered monthly February – November or as arranged in your facility.

Fundamentals of Palliative Care

Fundamentals of Palliative Care course is a series of learning packages designed for any health care worker – registered and non-registered, offered free of charge. (more info pg. 2).

The Fundamentals of Palliative Care Workshops can be run either as Modular monthly workshops or full day workshops that include all the modules.

Other Locally Facilitated Workshop

·Palliative care study day at each of the hospitals (Bay of Islands Hospital, Kaitaia Hospital and Hokianga Health)

·Caregivers -practical workshops

-Communication Workshop: compassionate communication in palliative care.

In addition, please note: We continue to provide opportunity for some of these workshops and /or additional education to be provided on-site if numbers are sufficient. Please send your enquiry to education@hospicemn.org.nz

Syringe Driver Training

PaEd is the Hospice New Zealand endorsed online Syringe Driver Competency Programme. If you are a registered or enrolled nurse within the mid and far north region you can now enroll free of charge.

There are three sections to this programme. You must have completed the online sections (a&b) before attending a practical workshop. PaEd Programme:

- a) Theory - online
- b) Medication calculation - online
- c) Practical competency workshop you attend with Hospice Educator

On successfully completing all three sections you will be able to download your certificate.

To get started:

To register for a username and password, go to <https://paled.elearning.org.nz>

Once you have successfully passed your online assessments (theory and calculations) you can enrol for the practical competency workshop which are held monthly or as arranged in your facility. To enrol, please email: education@hospicemn.org.nz and we will enrol you for the next available session.

Fundamentals of Palliative Care

Knowledge Hub is brought to you by Te Kahu Pairuri o Aotearoa Hospice New Zealand the Fundamentals of Palliative Care course is a series of learning packages designed for any health care worker – registered and non-registered.

It will give you an overview of how to care for people with palliative care needs in your role as a healthcare worker.

The online modules consist of:

- Essence of Palliative Care – pre-requisite to enrolling in further modules in the programme. It covers palliative care concepts and the culture of care.
- The Palliative Care Approach
- Managing Pain and Long-term illness
- Care and Support at the End of Life

These courses can be completed independently, with a certificate of completion available for each. To participate in a workshop, the online learning relevant to that workshop will need to be completed first. To complete the full Fundamentals of Palliative Care programme, participants are required to complete all on-line courses and attend workshop.

To register for a username and password go to: <https://knowledgehub.hospice.org.nz/>

Modular workshops are offered:

1 topic per month The Palliative Care Approach; Managing Pain & Long-Term illnesses. and Care and Support at End of Life
Or

Full day workshops (for modules 1,2 and 3)

Once you have completed a module, you can enroll in a workshop by emailing education@hospicemn.org.nz
